DIGITAL GUIDE

WELCOME TO MOZAIK EVENT CENTER

The fifth element of top event organization

In addition to designing and organizing all kinds of events, we also offer you the most important thing, the ideal space in which the event will take place. Choose from several newly renovated halls and choose the one that will best represent the character of your product, ideas and yourself.

Our halls, like us, have their own character, and their different characteristics inspired us to name them after the 4 elements: WATER, FIRE, AIR AND EARTH.

The fifth element that balances everything is our MOZAIK TEAM with rich experience in the event industry.

MEC LOBBY

MEC (Mozaik Even Center) lobby is a spacious lobby shared by the Air, Fire and Earth halls. It is most often used as a space for coffee breaks, lunch or socializing during and after events. A pleasant, relaxing space is designed in such a way as to provide your participants with a place to rest and take a break so that they can actively continue participating in the event.

Equipped with a sufficient number of electrical outlets, work surfaces and a free Wi-Fi network, it is often used as a workspace for urgent tasks during breaks from the events that take place in one of the mentioned halls.
